IntelliCorp Launches Candidate Direct and Volunteer Portal Mobile Solution for Optimized Background Screening Experience

BEACHWOOD, Ohio — ([BUSINESS WIRE](#)), November 13, 2018 — Intellicorp Records, Inc., a Verisk (Nasdaq:VRSK) business, has announced the launch of a mobile solution for its self-service Candidate Direct and Volunteer Portal background screening services. This allows applicants to enter their information for the background check from their preferred mobile device, creating an interactive and streamlined user experience.

With the mobile capabilities of the self-service Candidate Direct and Volunteer Portal solutions, clients have an easy-to-use interface for applicant screening and engagement. Users can take a picture of the driver's license, and the system automatically fills in the information captured. It also incorporates the electronic signing of disclosure and authorization forms; guides applicants as they enter information online in a step-by-step numbered workflow; and allows for the user to save, exit, and return later at any point during the process. Additional features include an easy data entry process for products such as employment and education verifications, personal references, and motor vehicle reports (MVRs). There is also a simple volunteer self-payment method available for nonprofit organizations to help disburse background screening expenses.

"Our self-service mobile portals are designed to make it more convenient for applicants, in addition to benefiting employers by reducing administrative functions and time to hire," said Todd Carpenter, IntelliCorp president. "Applicant engagement in the background screening process is vital to organizations when searching for top talent. Allowing applicants on-the-go access to self-service Candidate Direct or Volunteer Portal from a mobile device provides an optimal user experience and improves HR onboarding efficiency."

IntelliCorp's self-service Candidate Direct and Volunteer Portal also allow clients to customize the solution according to their specific screening requirements, which include products, custom branding, and text. In addition, clients can view the applicant's signed disclosure and authorization documents in the Results Center. The services are also web-based, which directly connect to IntelliCorp's background screening products, and provide a safe, secure method for conducting background checks.

About IntelliCorp

Intellcorp Records, Inc., is a provider of comprehensive background checks and employment screening solutions for businesses and nonprofit organizations. A Verisk (Nasdaq:VRSK) business, IntelliCorp is accredited through the National Association of Professional Background Screeners (NAPBS).
