## **IntelliCorp Announces Alliance with SmartRecruiters to Provide a Seamless Integration for Background Screening**

**BEACHWOOD, Ohio, February 26, 2019** — Intellicorp Records, Inc., a Verisk (Nasdaq:VRSK) business, announced today an alliance with SmartRecruiters to empower IntelliCorp customers with an integrated solution that helps simplify applicant screening and enhance the candidate experience. IntelliCorp is a provider of comprehensive background checks and employment screening services for businesses and nonprofit organizations.

The IntelliCorp-SmartRecruiters integration simplifies the recruiting process by delivering a seamless and secure method to transmit candidate data, resulting in increased efficiency and reduced time to hire. It also boasts IntelliCorp's mobile applicant portal solution, where candidates self-enter their information needed for the background check online from their phone, laptop, or desktop. Included within the portal are paperless disclosure and authorization forms, e-signature capabilities, driver's license data capture, and a screening process compliant with the Fair Credit Reporting Act (FCRA).

"The IntelliCorp-SmartRecruiters integration provides an end-to-end talent acquisition solution that benefits both the customer and candidate," said Todd Carpenter, IntelliCorp president. "It increases the efficiency of the recruiting process, provides a smooth experience for candidates, and incorporates compliance-driven background screening to help employers hire with confidence."

In addition to the integration, IntelliCorp is committed to providing value to clients through superior service, compliance, quality data, and secure technology solutions. To that end, IntelliCorp was named number one on *HRO Today* magazine's 2018 Baker's Dozen list of the nation's top midsize-program screening providers and the leader in the Quality of Service category.
